

Let's Build the Future in Manufacturing

GEORGIA MOUNTAINS
WORKS

ABOUT US

Georgia Mountains Works implements workforce development initiatives for the manufacturing sector in the 13-county region from a strategy developed by employers, economic developers, educators and stakeholders.

SAIL & LEAD

Leadership and Supervisor training essential to individuals in the manufacturing industry seeking to enhance their performance. The program is beneficial for everyone, particularly for those new to or transitioning into supervisory roles.

APPRENTICESHIP NAVIGATOR

Apprenticeships are the apex of the manufacturing workforce development pipeline. Georgia Mountains Works supports employers as they navigate the best practices of creating and retaining a skilled workforce through apprenticeships.

BECOME A PARTNER

Employer partners determine occupational and project priorities by participating in surveys, webinars, meetings, or tours. Partners demonstrate workforce development as a company priority and receive preference for regional workforce development opportunities.

Partnership opens a network of valuable resources, people, and ideas.

Manufacturing (MFG) Sector Strategy collaborates with stakeholders in the 13-county WorkSource Georgia Mountains (WSGM) region to align education and workforce training programs with the needs of manufacturing businesses. WSGM, under Georgia Mountains Regional Commission, administers the federal WIOA funds which encourages sector strategies and partnerships. Workforce Strategies Group LLC manages the MFG Sector Strategy.
